

Emergency Contact and NY Alert Information Form

In case of emergency, Paul Smith's College needs to know how to contact you and others that you specify. It is critical that you keep this information current with the Registrar's Office.

NY Alert is an emergency notification service run by the NY State Emergency Management Office (SEMO). This service allows the College to notify you, and others you specify, about campus and local emergencies through multiple messaging gateways such as phone calls, text messages, and/or emails.

NY Alert requires Cell Carrier information to be able to contact you through your cell phone.

Student Information

Date:
